What Does Egg Donation Treatment Cost?

The recipient is required to pay for all the costs of the donor's assessment and treatment.

There are several separate components to the costs of treatment with donor eggs.

- The medical expenses involved in assessing and testing the recipient and partner.
- Counselling costs for the recipient and her spouse
- The cost of the ICSI procedure on the donated oocytes
- The costs of the recipient embryo transfer cycle
- A cycle management fee for co-ordination of the cycle
- A six-monthly storage fee to cover all stored embryos
- The medical expenses involved in assessing and testing the donor and partner.
- Counselling costs for the donor and her spouse
- The costs of the IVF treatment cycle for the donor
- Hospital costs for the donor
- Anaethetist's cost for the donor
